# About FinregE

**FinregE is a leader in regulatory compliance automation technology, providing financial institutions with an end-to-end platform for managing compliance across global regulatory landscapes.**

From horizon scanning and interpretation to policy mapping, workflow automation, and reporting, all in one connected platform.

Selected by the **UK's Financial Conduct Authority (FCA)** to redesign and host its core regulatory Handbook, FinregE has demonstrated the reliability, precision, and scalability of its solutions at the highest regulatory level.

FinregE's proprietary AI and machine learning models are trained on millions of validated data points, enriched with metadata and lineage for complete traceability.

The result is accurate, auditable intelligence that drives efficiency and confidence in compliance management.

We are also backed by **Moody's**, one of the world's most respected names in data and analytics, another independent validation of our credibility and technical prowess.

We partner with global financial institutions like banks, insurance companies, asset managers and, more to deliver smarter and more transparent regulatory compliance solutions, helping them move beyond manual effort to measurable assurance.
